### Who We Are:

Pacific Northern Academy is an independent, non-profit early childhood, elementary and middle school in Anchorage. We expect students to be active participants in their own education, to continually challenge themselves, and to communicate clearly and respectfully. From Early Childhood through 8th grade, students learn to utilize good judgment, to treat others with compassion, and to act with vision, courage, and integrity as they develop intellectually and personally. Students, teachers and parents at PNA work in partnership to create a community of learners dedicated to education.

### About Create Academy:

Create Academy is the place where science, art, technology collide with a whole lot of creativity. Students are immersed in the creative process and learn new skills to take their creations to a whole new level. Each day is started by asking, "What problem will I solve, what challenge will I overcome, what question will I ask today?" Students will spend time in the Skill Lab learning new skills and build upon prior knowledge. They will get outside and explore nature to find inspiration for their creations. Collaborate in groups to develop an innovative solution to tackle a real world challenge and invent during open create time in the Makerspace. Create Academy is open to all students and is an extension of the style of learning offered during the school year at Pacific Northern Academy, an independent non-profit early childhood, elementary and middle school in Anchorage.
